Number of Instructors	8 diving instructors
GPS coordinates	Lat: 4.45276303 Long: 73.7156867
SCUBA DIVING GENERAL CONDITIONS	
Best Season	All year around, here in the west of the atoll, the visibility is a little bit worse from May to October but the manta rays are around Meeru. From November to April we have better visibility, but then the manta rays are in the east part of the atoll
Dives Meeru	Boat diving: single morning and afternoon, double tank dives in the morning, full day trips Maximum depth: 30 meters Distance to different reefs between 10 - 70 minutes Housereef: no – Meeru is surrounded by a beautiful large lagoon. In this lagoon you can encounter many fishes and corals. It is an ideal place for snorkelers and diving courses.
Highlights	The outside reefs around Meeru are easy and relaxing to dive. They are famous for their turtle population and not only are an encounter with these gentle reptiles literally guaranteed. Often we also can see sharks on these reefs. The channel crossings are demanding with current and the chance to see big pelagic fish. Thilas and girls inside the atoll feature an enormous number and variety of fish, but are protected from too strong currents, thus not only experienced divers but also beginners will enjoy to dive on these typical Maldivian dive sites. Here are a few short descriptions of some of our dive sites: Far Reef: Very beautiful outside reef with great fish life and many white tip reef sharks Miyaru Faru Kandhu: Shark Highlight! Grey Reef Sharks, White tip reef sharks, Eagle Rays and other pelagics

	<p>Fairy Tale: Overhangs with beautiful soft corals and a great diversity of marine species. Manta cleaning station!</p> <p>Asdhoo Rock: Unusual reef structure and great amounts of fish make Asdhoo Rock one of the most interesting inside reef dive spots. Good for shark observation!</p> <p>West Rock: Easy-to-dive steel wreck (length: 30m)</p> <p>Here some highlights for our 2-tank or full-day-trips:</p> <p>Bodu Thila: Beautiful thila with excellent coral growth and fish life</p> <p>Trix Caves: Big overhangs with fantastic soft corals</p> <p>Maldives Victory: Best wreck dive in the Maldives</p> <p>Banana Reef: One of the most famous and classic dive spots in the Maldives</p> <p>Nassimo Thila: Thila with spectacular hard- and soft corals</p> <p>Bodu Hithi Thila: Among the best manta spots in the Maldives</p> <p>Saddle and Vashimas Thila: Great places to see sharks and eagle rays</p> <p>Okobe Thila: Interesting topography of the reef and a tremendous variety of fish!</p>
Pelagic	Mantas and sharks can be seen all year. Our favorite and famous manta spots from May to October are "Fairy Tale" and "Lankan Manta Point" and from December to April "Bodu Hithi Thila" (full day or two tank excursion).
Number of Dive sites	57
Medical Certificate	Recommended
